▪ **Occupation, skills and experience that may benefit**

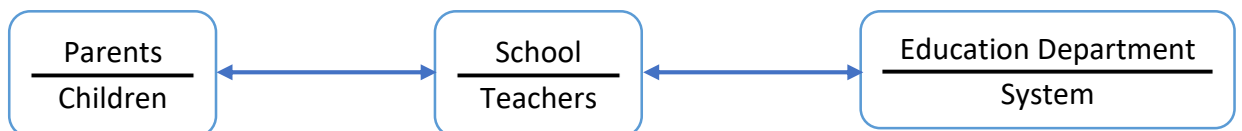

- I'm a medical doctor by training, currently I'm a full-time PhD student at the University of the Western Cape, School of Public Health.
- I worked as a lecturer and researcher at Stellenbosch for 7 years, after that I joined the University of the Western Cape as a senior researcher for 3 months before embarking on a full time PhD study.
- My experience is mostly in teaching and coordinating postgraduate programmes.
- My PhD focused on accountability, some of the applied literature were from the education field.

▪ **Vision for the school**

My vision for the school is to strengthen accountability as reciprocal relationships of obligations particularly between parents and the school (teachers), but also between the school (teachers) and the Education management.

Parents should know (be reminded of) their duties toward their children and the school; the teachers (school) have "obligation" to provide uninterrupted quality teaching to children and to follow the rules/curriculum set by the Department of Education (DoE); the DoE management to avail resources and positive motivation to school (teachers) before holding them accountable.

By doing this, as a system, we can all expect the best outcomes for our children.

▪ **Consent for vetting**

I, Fidele Mukinda, hereby give my consent to Parow Inclusive school for a full vetting process.
